2. **The EXPO 2015** presents the overall reduction in the cost of labor as a means of safeguarding the system, falsely proposes to feed the world when in fact want to Starve the Workers! just look at the contracts of the workers engaged in Expo 2015 (3.50 euro gross per hour).
3. **The TTIP** (Transatlantic Trade and Investment Partnership); that is free trade and investment that eliminates export licenses, certificates of quality, environmental regulations, collective bargaining agreements, safeguards and rules of the government. The TTIP is the final attack on the welfare state, as it remove environmental rules, sells off assets and public services, tramples the rights of workers and citizens
4. **Il TISA** (Trade In Services Agreement) Agreement on exchange services; which aims to privatize the entire industry of essential services: water, energy, health, education, transport. 5. **Preparation of the G7 OF 2017 to accommodate IN FLORENCE.** After the criminals outcomes of summits in Genoa in 2001, and L'Aquila in 2009, they want to host the exhibition of capitalism in the "City peacemaking" "Florence Social Forum" and enslave it, militarizing yards and infrastructure for the event
