

# TO REDISTRIBUTE THE INCOME TO THE WORKERS, THE TEMPORARY WORKERS, THE PENSIONERS.

AGAINST THE PROPOSED 2008 NATIONAL BUDGET LAW AND THE AGREEMENT OF  
JULY 23<sup>RD</sup>.

The free-trade policy carried on by governments which are slave of the ruling class and of the bankers, along with the concerted action of the National Trade Unions (CGIL, CSL, UIL), have produced low salaries, conditions of temporary working, a reduction of the welfare state, an increase of taxes for the workers and a huge income transfer to profit and revenues.

A reduction of 8 billion of Euros per year in fiscal and social security contributions has been granted to the Companies between 2007 and 2008.

To workers, instead, a precarious future, a rise of the retirement age, a reduction of retirement pension fee and a mock as far as the wearing jobs is concerned.
